If you talk to our employees, the single trait we all have in common is passion. We work hard because we love what we do, and we know how much our community needs us. **Objectives & Expectations**

The United Way improves lives by mobilizing the caring power of communities to advance the common good to help all residents thrive and live the best version of themselves. We all benefit when a child succeeds in school, when someone finds a job that sustains a family, or when more people get quality, affordable healthcare. As our community recovers from one of the deadliest pandemics in our country's history, the United Way will play a pivotal role in helping residents from under resourced communities and the ALICE population (Asset Limited, Income Constrained, Employed) move towards self-sufficiency.

Serving as a backbone for our community, United Way will partner with organizations to provide enhanced job training and improved housing opportunities for ALICE individuals and will provide wrap around services to connect residents to healthcare programs for families impacted by the pandemic. United Way will also support the reopening of the local economy by partnering with organizations to support small business growth, working closely with nonprofit agencies to deliver programs and services to residents experiencing need. The Director of Women United will identify, qualify, cultivate and solicit gifts within our local community as members of Women United. Spend at least 60% of time in the field meeting and interfacing with key constituents and prospects to increase membership and giving. Work with other UW staff to facilitate a team environment that supports all leadership and legacy giving.
